

Uniti Star

Versatility and Performance

Product EANs: 5060332107131 (UK) - 5060332107124 (EU)

The clue is in the name: this system is the star of the show. With plenty of features and the ability to play, rip, store and serve your treasured music collection, Uniti Star offers infinite possibilities. Stream your music in high-resolution, play or rip your CDs, access a world of music with a host of streaming services and dramatically improve the audio quality of your TV or games console.

Key Features

Enjoy your music in crystal-clear high definition up to 32bit/384khz with UPnP (Universal Plug and Play) streaming.

Go further than just music. Enhance TV, movies and game consoles with the Uniti Star's HDMI ARC (Audio Return Channel) connection.

Create bit-perfect copies of your CDs, save the data on an SD card or external storage (e.g. USB drive or NAS) and then play back or serve the music.

Wirelessly stream all major services to Uniti Atom including Spotify, Tidal, and Apple Music. Play any source using AirPlay 2, Chromecast built-in or Bluetooth aptX HD

Fill your entire home with music using multiroom technology in up to eight rooms of your house, all controlled via the Naim app.

Over-the-air updates via the Naim app will enable you to update your Uniti system at the touch of a button.

Reviews

"I hesitate to use the word perfect about any product but the Naim Uniti Star sounds pretty perfect to me"

Forbes

"It is practically impossible to find fault with Naim's new Uniti Star"

Hi-Fi Choice
PASSION FOR SOUND

"The combination of myriad source options and great sound make the Star an obvious choice"

Technical Specifications

Inputs	2 x Optical TOSLink (up to 24bit/96kHz) 2 x Coaxial RCA (up to 24bit/192kHz, DoP 64Fs) 1 x BNC (up to 192kHz, DoP 64Fs) 1 x HDMI ARC 1 x RCA 1 x 5-pin DIN 2 x USB Type A Socket (front and rear) 1 x SD Card
Dimensions	95mm x 432mm x 265mm (HxWxD) 3.75" x 17.00" x 10.43" (HxWxD)
Weight	12kg (26.45lbs)
Supplied with	Remote control, Power-Line Lite mains cable (UK denominations only), cleaning cloth and quick start guide.
Analogue Audio Outputs	1 x Stereo power amplifier 1 x RCA sub/pre output 1 x 3.5mm headphone jack
Amplifier Output	70W per channel into 8 ohms
Audio Formats	WAV - up to 32bits/384kHz FLAC and AIFF - up to 24bit/384kHz ALAC (Apple Lossless) - up to 24bit/384kHz MP3 & AAC - up to 48kHz, 320kbit (16 bit) OGG and WMA - up to 48kHz (16 bit) DSD64 and DSD128
WiFi Connectivity	802.11ac MIMO 2.4GHz and 5GHz

Upgrade Options

Power Line

A smooth, stable, low-noise supply is critical. Its complex, precision-engineered construction has been defined and refined following solid mechanical engineering principles.

NAP200 Power Amplifier

- 70W per channel output into 8 ohms - Dual mono power amplifier design - Audiophile grade hand-selected components - Linear power supply with a large toroidal transformer.
